- Notes for Using This Booklet -

- In principle, industry names in this booklet are according to the Japan Standard Industrial Classification (Rev. 13, October 2013). "Industry major groups", "Industry groups", etc. indicate the classifications based on this Industrial Classification.
In case a referenced material is using the name different from the Japan Standard Industrial Classification, the name used in such referenced material is used.
- The first quarter, the second quarter, the third quarter and the fourth quarter represent the periods from January to March, from April to June, from July to September and from October to December respectively.
- Numbers of establishments and numbers of persons engaged based on the "Economic Census for Business Frame" and the "Economic Census for Business Activity" are basically for privately owned establishments.
- Regarding accounting process for annual product sales amount, handling of consumption tax differs from year to year. Care should be taken when you use them in time series.
- In the "Labour Force Survey", the values and the definitions of the terms of "Basic Tabulation" are used. Also in the "Labour Force Survey", since the population which is the basis for calculation has been changed every 5 years, there has been a fluctuation resulting from such changes. Care should be taken when you use it in time series.
- In the "National Census", regarding "unknown values" included in aggregate results of major items, "complementary estimates" complemented by proportional distribution are used.
- Depending on the source, in some cases the sum of the breakdown may not equal the total due to the factors such as fraction processing.
- Regarding certain values (e.g. ratios), there are some cases where the Bureau of Industrial and Labor Affairs independently calculated.
- In this booklet, "Small and Medium Enterprises" and "Small Enterprises" are according to the definitions of the Small and Medium Enterprises Basic Act in principle.
- In this booklet, the data of annual reports published through the end of January 2023 is mainly used.
